

Contactless Appointment Check-In

Now you may skip the front desk and check in for your appointment right from your mobile device. **Contactless Check-In** is a new option on the My Health Online app that offers safe, contact-free check-in for your appointment. To use this feature, make sure you've completed your EZ arrival check-in tasks ahead of time.

How it works:

1. When you arrive for your appointment, log in to the **My Health Online** app.
2. Navigate to **Appointments**, select your current appointment and click **I'm Here**.
3. The front desk will be notified of your arrival and you'll receive next steps.

Don't have the My Health Online app?
Download from your preferred app store.
