Medical Foundation Charity Care and Low Income
Uninsured Policy

PURPOSE

The purpose of this policy is to define the eligibility criteria for Charity Care services and to provide administrative and accounting guidelines for the identification, classification, and recording of patient accounts as Charity Care.

POLICY

It is policy to provide Charity Care based upon the individual's ability to pay as defined by annually published Federal Poverty Income Guidelines (FPIG). Confidentiality of information and individual dignity will be maintained for all who seek Charity Care.

SCOPE

This policy applies to Sutter Health and any legal entity for which Sutter Health or its affiliate is the sole member or directly or indirectly controls at least 50% of the voting power or equity interest and does not have a third-party manager and bills and collects for professional, technical, or facility services in ambulatory settings (herein referred to as Sutter). This policy does not apply to billing and collection for professional, technical, or facility services in hospital settings.

DEFINITIONS

Allowable Medical Expense includes out-of-pocket medical liabilities and/or debts, paid or unpaid, incurred in the last twelve (12) months for the patient and family and is limited to emergent and/or medically necessary health care...
services, as determined by the medical foundation, incurred at Sutter hospitals, medical foundations, and other external health care providers and suppliers.

**Charity Care** is the application of write-offs afforded to low-income, Uninsured patients who are eligible for consideration based on meeting the income eligibility criteria as established by the FPIG and this policy.

**Family Income** includes annual family earnings and cash benefits from all sources before taxes, less payments made for alimony and child support.

**Federal Poverty Income Guidelines (FPIG)** means the measure of income level published annually by the United States Department of Health and Human Services (HHS) and is used by Sutter medical foundations in determining eligibility for Charity Care. The published FPIG can be found here: [https://aspe.hhs.gov/topics/poverty-economic-mobility/poverty-guidelines](https://aspe.hhs.gov/topics/poverty-economic-mobility/poverty-guidelines).

**Non-Emergent Services** means medical services provided for a medical condition that does not meet the criteria of an emergency medical condition under 42 U.S.C. 1395dd € of the Emergency Medical Treatment and Active Labor Act.

**Uninsured** is a patient who has no third-party source of payment for any of their medical expenses, including without limitation, commercial or other insurance, government sponsored health care benefit programs, or third-party liability, and includes a patient whose benefits under all potential sources of payment have been exhausted prior to receiving services.

**PROCEDURE**

**Eligibility Criteria:**

A. **Charity Care Application:**

1. A low income, Uninsured medical foundation patient who indicates the financial inability to pay a bill for a medically necessary service shall be evaluated for CharityCare assistance.

2. The Sutter standardized application form, **Attachment A: Application for Financial Assistance**, may be used to document the patient's overall financial situation. This application should
be available in the primary language(s) of the medical foundation service area.

3. A sample worksheet, **Attachment B: Medical Foundation Charity Care Calculation Worksheet**, is provided to aid the medical foundations in determining the amount and type of Charity Care for which the patient may be eligible.

4. Once a determination has been made, **Attachment C: Notification Form** is completed and will be sent to the patient advising them of the medical foundation's decision.

5. Sutter may validate income by using external presumptive eligibility sources and/or credit reports to validate financial eligibility.

6. A patient's employment status may be taken into consideration when evaluating Charity Care status as well as potential payments from pending litigation, and third-party liens related to the incident of care.

7. The amount and frequency of medical foundation bills may also be considered.

8. The data used in making a determination concerning eligibility for Charity Care should be verified to the extent practical in relation to the amount involved.

9. Proof of earnings may be determined by annualizing year-to-date Family Income, giving consideration for current earning rates. If a patient's financial status can be verified using external data sources, the patient may not be required to provide financial documentation.

B. **Full Charity Care**: The standard eligibility threshold for full Charity Care write-off is a minimum of two hundred (200) percent of the most recent FPIG.

C. **Medi-Cal Denied Patient Days and Non-Covered Services**: Medi-Cal patients are eligible for Charity Care write-offs related to denied charges and non-covered services. These treatment authorization request (TAR) denials and any lack of payment for non-covered services provided to Medi-Cal patients are to be classified as Charity Care. Patients eligible for restricted scope Medi-Cal (i.e., emergency, pregnancy related services) may be presumed eligible for Charity Care
for out-of-scope services.

D. **Catastrophic Charity Care**: In order to qualify for catastrophic Charity Care circumstances, the Uninsured medical foundation patient must meet the expense qualification as described below.

1. **Expense Qualification**: The patient's Allowable Medical Expenses must exceed thirty (30) percent of the patient's Family Income determined as follows:
   
   a. The medical foundation will multiply the Family Income by thirty (30) percent.
   
   b. The medical foundation will determine the patient's Allowable Medical Expenses.
   
   c. The medical foundation will compare thirty (30) percent of the Family Income to the total amount of the patient's Allowable Medical Expenses. If the total of the Allowable Medical Expenses is greater than thirty (30) percent of the Family Income, then the patient meets the catastrophic Charity Care qualification. The medical foundation will subtract thirty (30) percent of the Family Income from the Allowable Medical Expenses to determine the amount by which the Allowable Medical Expenses exceed the available income; this amount is then eligible for a Charity Care write-off.

E. **Eligibility Period**: The eligibility period is one (1) year from the date of the initial eligibility determination, unless over the course of that year the patient's Family Income or insurance status changes to such an extent that the patient becomes ineligible.

F. **Homeless Patients**: Homeless patients without a payment source may be classified as Charity Care if they are unemployed, and have no known mailing address, residence, or insurance.

G. **Collection Agency**: If a collection agency identifies a patient meeting the medical foundation's Charity Care eligibility criteria, their patient account may be considered Charity Care, even if they were originally classified as a bad debt. Collection agency patient accounts meeting Charity Care criteria should be returned to the medical foundation billing office and reviewed for Charity Care eligibility.
H. Special Circumstances:

1. Deceased patients without an estate or third-party coverage will be eligible for Charity Care.
2. While it is not the policy of Sutter to routinely waive co-pays and deductibles, a patient's individual circumstances may be such that while they do not meet the regular Charity Care criteria in this policy, they do not have the ability to pay their bill. In these situations, with the approval of an administrative or operational director or above, part, or all of their cost of care may be written off as Charity Care. There must be complete documentation of why the decision was made to do so and why the patient did not meet the regular criteria. The documentation may include an asset test and/or credit check.
3. Charity Care and discounts provided by this policy are generally not available for Non-Emergent Services, however, in certain cases an exception may be made. These exceptions require approval by the medical foundation administration. Specialized, high-cost services (e.g., experimental procedures) requiring Charity Care are also subject to the review of medical foundation administration prior to the provision of service. Final determination regarding eligibility for Charity Care for patients traveling from outside of the medical foundation's immediate service area is left to the discretion of the individual medical foundation.

I. Governmental Assistance:

1. In determining whether each individual qualifies for Charity Care, other county or governmental assistance programs should also be considered. Many applicants are not aware that they may be eligible for assistance such as Medi-Cal, the Healthy Families Program, Victims of Crime, or California Children Services.

2. Persons eligible for programs such as Medi-Cal, but whose eligibility status is not established for the period during which the medical services were rendered, may be granted Charity Care for those services. Sutter may make the granting of Charity Care contingent upon applying for governmental program assistance. This may be prudent, especially if the particular patient requires ongoing services.
J. Time Requirements for Determination:

1. While it is desirable to determine the amount of Charity Care for which a patient is eligible as close to the time of service as possible, there is no rigid limit on the timewhen the determination is made. In some cases, eligibility is readily apparent and a determination can be made before, on, or soon after the date of service. In other cases, it can take investigation to determine eligibility, particularly when the patient has limited ability or willingness to provide needed information.

2. Every effort should be made to determine a patient's eligibility for Charity Care. In some cases, a patient eligible for Charity Care may not have been identified prior to initiating external collection action. Accordingly, each entity's collection agency should be made aware of the policy on Charity Care. This will allow the agency to report amounts that they have determined to be non-collectable due to the inability to pay in accordance with the facility's Charity Care eligibility guidelines.

K. Presumptive Eligibility: Patients may be identified as eligible for Charity Care without applying for assistance if their financial status can be validated using external data sources.

L. Record Keeping: Records relating to potential Charity Care patients must be readily accessible. In addition, notes relating to charity application and approval or denial should be entered on the patient's account.

M. Public Notice and Posting: Public notice of the availability of assistance through this policy should be made through the following means:

1. Posting notices in a visible manner in locations where there is a high volume of patient admitting/registration, billing offices, admitting offices, clinics and other point-of-service settings.

2. Including language on bills sent to Uninsured patients statements indicating:

   a. If the patient meets certain income requirements, the patient may be eligible for a government-
sponsored program or for financial assistance from the medical foundation.

b. A medical foundation phone number patients may call for further information.

3. Posting notice of the availability of assistance and a contact phone number on the medical foundation’s website. Detailed information regarding financial assistance is available at https://www.sutterhealth.org/for-patients/financial-assistance.

4. Posted notices (as listed above) shall be in the primary language(s) of the medical foundations service area and in a manner consistent with all applicable federal and state laws and regulations. Posted notices shall contain the following information:

   a. A statement indicating that the medical foundation has a financial assistance policy for low-income Uninsured patients who may not be able to pay their bill and that this policy provides for full or partial Charity Care write-off.

   b. Identification of a medical foundation contact phone number that the patient can call to obtain more information about the policy and about how to apply for assistance.

SUTTER HEALTH
ELIGIBILITY DETERMINATION FOR CHARITY CARE

Sutter Health has conducted an eligibility determination for charity care for:

PATIENT’S NAME ACCOUNT NUMBER DATE (S) OF SERVICE

The request for charity care was made by the patient or on behalf of the patient on___________.
This determination was completed on:______________________.

Based on the information supplied by the patient or on behalf of the patient, the following determination has
been made:

_____ Your request for charity care has been approved for services rendered on______
After applying the charity care reduction, the amount owed is $______________.

_____ Your request for charity care is pending approval. However, the following information is
required before any adjustment can be applied to your account:

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

_____ Your request for charity care has been denied because:

REASON:
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

If you have any questions on this determination, please contact:
