

IMPACT OF EAST BAY PHILANTHROPY

At Sutter Health, we marvel at the impact our donors, leadership, Board of Trustees, staff and volunteers have had on the communities of the East Bay. In 2018, each of you showed deep dedication to a philanthropic partnership that unleashes our community's generous spirit and turns inspiration into action.

By endowing innovative programs and cutting-edge technologies with broad reach, local gifts make an impact every day. For instance, philanthropy allowed Alta Bates Summit Medical Center's neonatal

intensive care unit to serve more families and Eden Medical Center to upgrade its linear accelerator technology to advance cancer care options. Donor gifts also helped the Carol Ann Read Breast Health Program hold 26 mobile mammogram events across the East Bay, including five in Grocery Outlet parking lots, to reach a broader segment of unscreened women.

We salute everyone who helped fulfill our mission over the last year. Here is a snapshot of some of our recent accomplishments.

ALTA BATES SUMMIT MEDICAL CENTER

1,950

families served by Nurturing NICU Families, which educates, supports and empowers new parents

3,526

robotic surgeries performed with the da Vinci Xi Surgical System

EDEN MEDICAL CENTER

\$355,000+ released for:

- LINAC upgrade for the Eden Radiation Oncology Center, treating 4,000 local cancer patients
- NICO BrainPath and Myriad system upgrades, expanding minimally invasive neurosurgery to more patients
- New isolette for infants with jaundice, ensuring timely phototherapy
- 500 bicycle helmets for local children to support trauma education and prevention

SUTTER DELTA MEDICAL CENTER

As part of the Contra Costa STEMI System, patients needing emergency cardiac care come straight to SDMC's state-of-the-art Cardiology Interventional Laboratory.

803

patients treated

234

coronary interventions

SUTTER EAST BAY MEDICAL FOUNDATION

The foundation's Reach Out and Read program provides books for children's well visits at Bay Area pediatricians' offices.

1,600+

books distributed in Antioch and Brentwood

CAROL ANN READ BREAST HEALTH PROGRAM

Philanthropy helped launch a mobile mammogram van to serve women across the East Bay.

26

free community screening events

146

uninsured women screened
