### Colonoscopy Preparation Instructions with SuTAB

**IMPORTANT:** not following the instructions below may result in your procedure being cancelled and rescheduled.

1. Eating solid foods the day before your procedure may result in a suboptimal procedure.
2. **No eating or drinking anything 3 hours prior to the procedure** or your procedure will be delayed until the end of the day. This includes candy, gum, or mints.
3. You need a **responsible adult age 18+** with a valid unrestricted driver’s license to take you home. You are not permitted to take a taxi, bus, or service like Uber.
4. Follow ONLY the instructions given by your gastroenterologist or on this instruction sheet. **DO NOT follow instructions from any other source including the instructions on your prep bottle/box.**
5. If a polyp is removed, we recommend no international travel for 2 weeks after your colonoscopy procedure. This is due to the potential risk of bleeding if large polyps are removed. Check with your gastroenterologist if you’re planning to travel internationally.
6. A successful prep is when your bowel movement is a clear yellow liquid.

### Seven (7) days before your procedure:

**STOP:**

1. Aspirin unless prescribed by a physician
2. NSAIDS including: Ibuprofen (Motrin, Advil), Naproxen (Aleve, Naprosyn), and similar medications
3. All seeds, nuts, popcorn, Iron supplements.
   
   In the event you have taken any of the above, please stop taking them and let your physician know on the day of your procedure.

**OKAY/APPROVED:**

1. Any regular medications (especially blood pressure and/or cardiac medications)
2. Acetaminophen (Tylenol)
3. Foods such as meat (chicken, pork, beef), fish, tofu, white bread, white rice, noodles, yogurt, fruits and vegetables (remove skin and seeds), pasta, eggs, pancakes, cheese and dairy products

You will receive additional instructions, guided by your prescribing physician, if you are taking:

- Blood thinner medications such as Warfarin (Coumadin), Heparin, Lovenox, Plavix, Aggrenox, Ticlid, Pradaxa
- Diabetes medications

### The ENTIRE day before your procedure:

**STOP (in addition to above):**

1. Any solid food
2. Dairy Products
3. Alcohol

**OKAY/APPROVED:**

1. Any regular medications (especially blood pressure and/or cardiac medications and acetaminophen (Tylenol)
2. Water and clear liquids including:
   - **Juices:** apple, white grape, white cranberry, lemonade
   - **Broth:** chicken, beef or vegetable
   - **Soda:** 7-Up, Coke
   - **Other:** black coffee, tea, popsicles, jello, sports drinks

**6 PM the day before your procedure:** Take the first dose of SUTAB tablets.

1. Open 1 bottle of 12 tablets.
2. Fill the provided container with 16 ounces of water (up to the fill line). Swallow each tablet with a sip of water and drink the entire amount of water over 15 to 20 minutes.
3. Approximately 1 hour after the last tablet is ingested, fill the provided container again with 16 ounces of water (up to the fill line), and drink the entire amount over 30 minutes.
4. Approximately 30 minutes after finishing the second container of water, fill the provided container with 16 ounces of water (up to the fill line), and drink the entire amount over 30 minutes.

The day of your procedure:
Continue your clear liquid diet from when you wake up in the morning.
Make sure to drink clear liquids throughout the day to keep yourself well hydrated.
Take your regularly prescribed morning medications (with a small sip of water) unless instructed otherwise.

5 hours before your scheduled procedure time: Take the second dose of SuTAB tablets.
1. Continue to consume only clear liquids until after the colonoscopy.
2. Open the second bottle of 12 tablets.
3. Repeat STEP 1 to STEP 4 from Dose 1.

3 hours before your scheduled procedure time:
No eating or drinking until after your procedure or your procedure will be delayed until the end of the day.

A successful prep is when your bowel movement is a clear yellow liquid. If you have any problems with your prep after hours (it doesn’t work, or you throw it up, etc.) please call the gastroenterologist on call.
