CPMC's Newborn Connections promotes the health and well-being of expectant and new families through education, resources, and support. As a community-based, not-for-profit center, 100% of our proceeds are invested back into our programs enabling us to provide community resources such as lactation services, new family support groups, mother/baby retail boutique, and a breast pump rental station. Be sure to stop by at about 38 weeks of pregnancy to be fit for a nursing bra by one of our expert bra fitters. No appointment necessary!
