

Caring for your little one for a lifetime.

From your child's birth through adolescence, you can rely on us to provide comprehensive primary and specialty care. To find a pediatrician near you, visit sutterhealth.org/findadoctor and search **Pediatrics**.

Comprehensive Care for Children

For more than a century, Bay Area families have turned to the pediatricians at Sutter Health CPMC to provide excellent care for their children. When specialty medical treatment is needed, the CPMC teams work with pediatric specialists at Stanford Children's Health to provide the care your child needs.

You can now make appointments to see Stanford pediatric specialists at the CPMC California Campus and at satellite clinic sites in Terra Linda and Santa Rosa.

To learn more about pediatric specialty care at CPMC, visit cpmc.org/pediatrics or call 415-600-0770 to make an appointment.
