Service: The PCU/CVIU are busy units with high acuity patients. Common diagnoses/procedures are chest pain, acute coronary syndrome (ACS), heart failure, arrhythmias, heart catheterization (pre and post), open heart surgery, heart transplant, VAD (ventricular assist device) implantation.

Objective: To provide comfort measures to the patient and family members either directly or indirectly and to provide an educational experience for the volunteer.

Hours: Monday-Sunday 1300-2100 (1300-1700, 1700-2100)

Initial training with designated trainer as pre-scheduled with department

Qualifications:
- Friendly, positive, and professional attitude.
- Ability to demonstrate compassion and caring in a non-judgmental way.
- Works well with patients, staff and visitors.
- Eager to participate in a variety of medical situations

Responsibilities: ** indicates your primary responsibilities**
- **Purposeful Rounding (see handout)**
  - Provide food/drink to patients only after checking with the nurse each time.
  - Discharge patients in wheelchair.
  - ASSIST staff with any care/procedure with direct supervision only.
  - ASSIST staff with bathing.
  - ASSIST staff with patient transport.
  - ASSIST staff with patient transfers (chair, commode, bed).
  - OBSERVE evaluation and therapy sessions (PT, OT, ST) with approval.
  - Set up patient trays (may NOT deliver).
  - Clean cardiac monitors.
  - Assist secretary with clerical tasks (only when patient rounding is complete)
  - Stock supplies, carts, and blanket warmers.
  - Run errands to the Lab and Central Supply (includes picking up blood products and delivering lab specimens).
  - Direct visitors.
  - Call EVS when laundry hamper or trash needs emptying (remove when ¾ full)
  - Perform 5S Zone checks as assigned by charge RN or unit secretary.

Surgery Waiting Room Volunteer

Service: The surgery waiting area provides a comfortable and caring environment for the families and friends of patients while they are in surgery. The surgery department serves inpatients and outpatients. The types of surgeries performed are orthopedics, neurology, oncology, cardiology, general surgery and pediatrics.

Objective: The main priority of the volunteer is to assist the staff with providing comfort measures to patients, families and visitors through the utilization of “rounding”. They will provide up to date information to the friends and families of patients that are in surgery. They will work independently and in collaboration with the PACU, ACU, Cath Lab holding area, and Patient Registration staff with disseminating information, escorting families to meet with the physician, and general assistance to provide that extra touch of customer service.
Hours: Monday-Friday, 8 a.m. to 7 p.m. NO weekends or holidays

Qualifications:

- Communicate effectively and compassionately
- Friendly, positive and professional attitude
- Works well with patients, staff and visitors
- Ability to be self-directed
- Must be able to stand and walk for long periods (during shift)

Responsibilities:

- Retrieve “short” surgery list from registration staff
- Check to see if there are delays or cancellations
- Escort patient to ACU or Cath Lab bays per instruction of staff
- Check to ensure that family members/visitors are located in the correct waiting room
- Visit with family members/visitors
- Keep family informed of patient location and estimated schedule
- Show family members how to read the EPIC screen to check on patient’s status
- Assist physicians and staff in locating family members/visitors
- Escort family members to PACU, ACU, Cath Holding, Peds or conference room
- Round in waiting room
- Use Cisco phones to assist staff
- Monitor water
- At end of afternoon shift, the ‘Short List” is to be shredded (HIPAA)
- Volunteers can assist staff with training of new volunteers

Sutter Institute for Medical Research (SIMR) - Emergency Services Volunteer

Service: The Sutter Medical Center Emergency Department provides emergency care to adults and children. The department conducts research in conjunction with the Sutter Institute for Medical Research (SIMR).

Objective: The main priority of the volunteer is to assist the clinical and research staff with implementation of research being conducted in the Emergency Department. The volunteer will have the opportunity to participate in many aspects of the research process including collaboration on peer-reviewed manuscripts. Provide the volunteer opportunities for learning professional and social interaction in a medical setting.

Hours: Commitment of 400 hours in 4 hour shifts during any 24-hour period Sunday through Saturday

Qualifications:

- Enrolled or graduated from college or university.
- Aspire to attend medical school.
- Detail oriented.
- Friendly positive attitude.
- Works well with patients and staff.
- Takes direction well.

Responsibilities:

- Assist with making submission packets for study review
- Assist coordinators with conduct of research
- Assist with data entry
• Assist with putting together research binders
• Make copies and scan material as needed
• Assist staff with Word, Power Point, Excel, Outlook office programs
• Assist staff with laboratory preparation (stocking, cleaning, etc.)
• Assist with special projects
